Visualizing Belief

To understand the divinity experienced and the goodwill of celebrating the Navratri, we review certain oft asked questions

1. Does one believe in God and divinity?

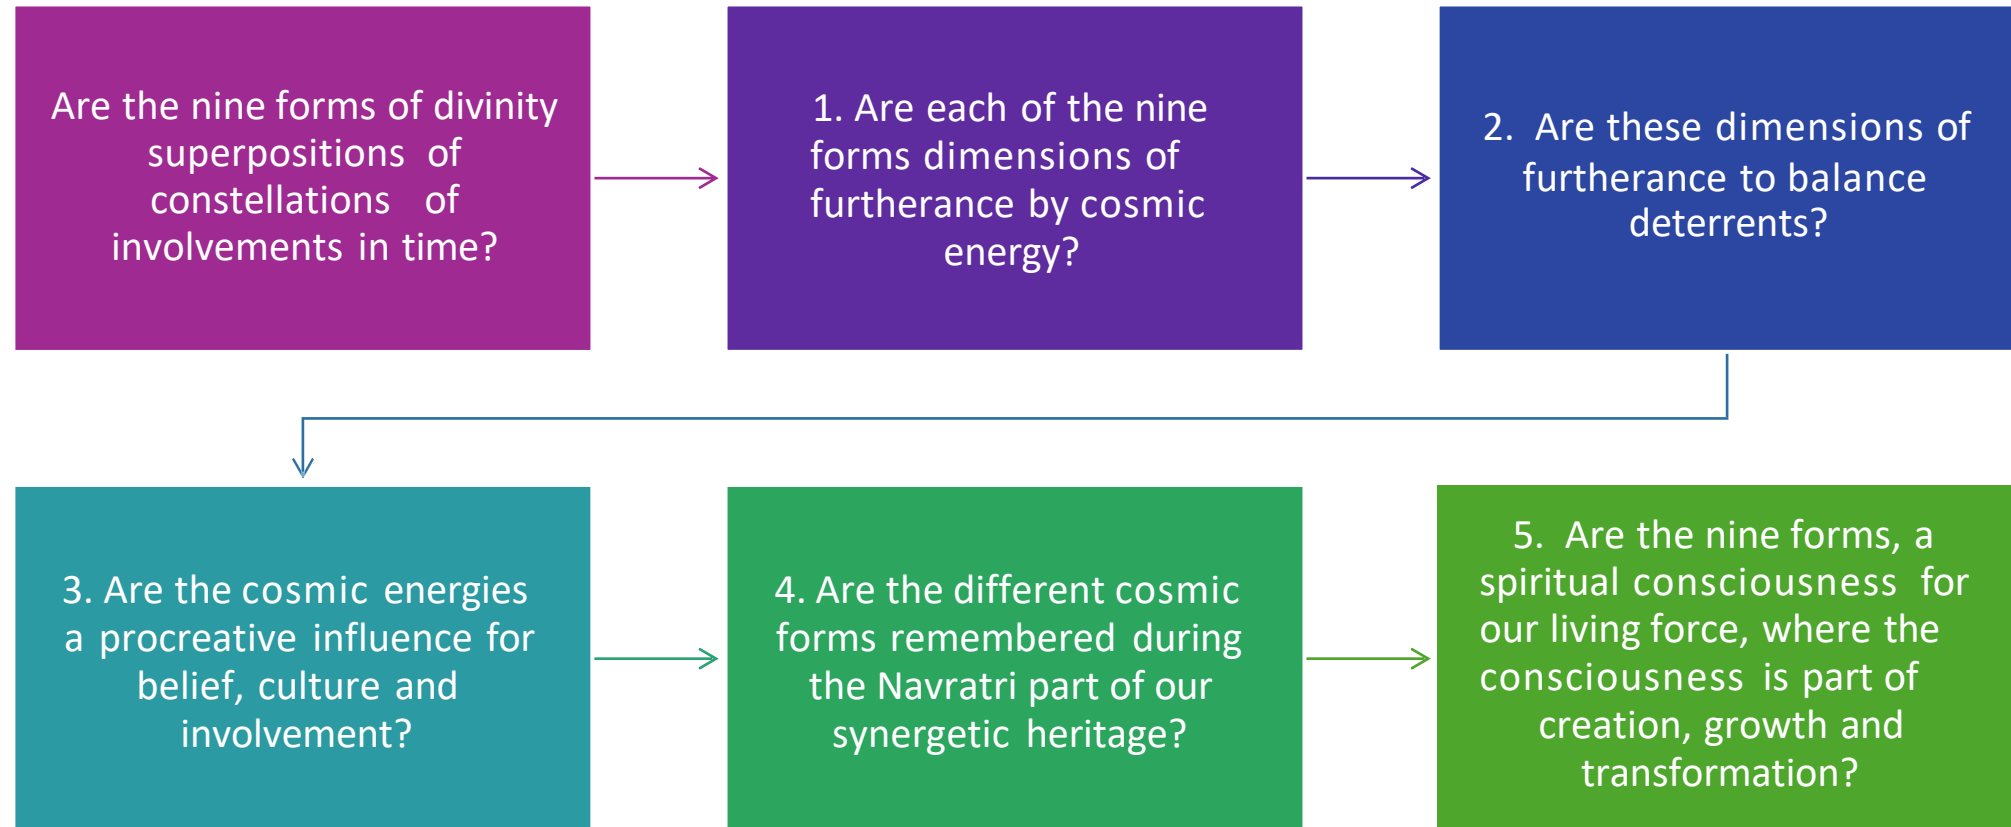

2. Does one know how cosmic energy influences us?

3. Does the Navratri help visualize divinity and furtherance?

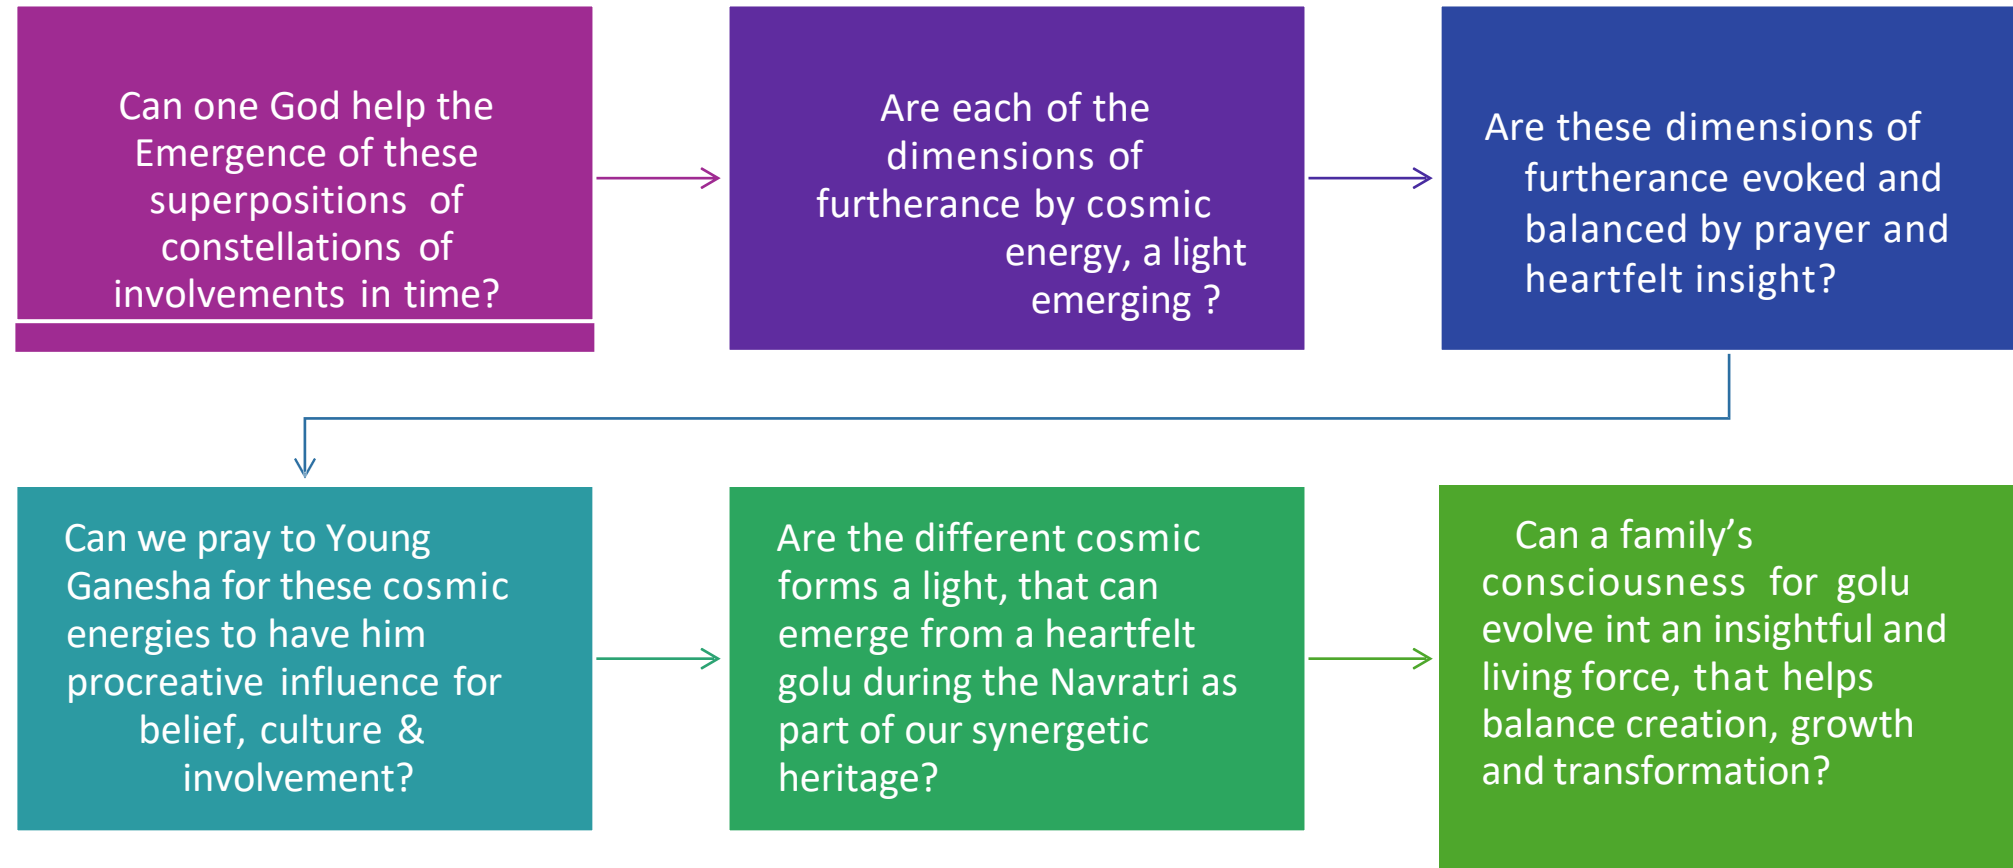

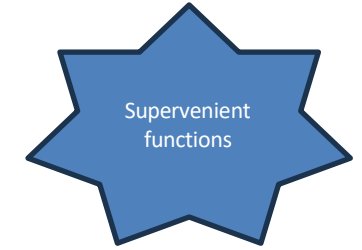

4. Are the different cosmic forms remembered during the Navratri reflective of divinity and an unseen sense of purpose?

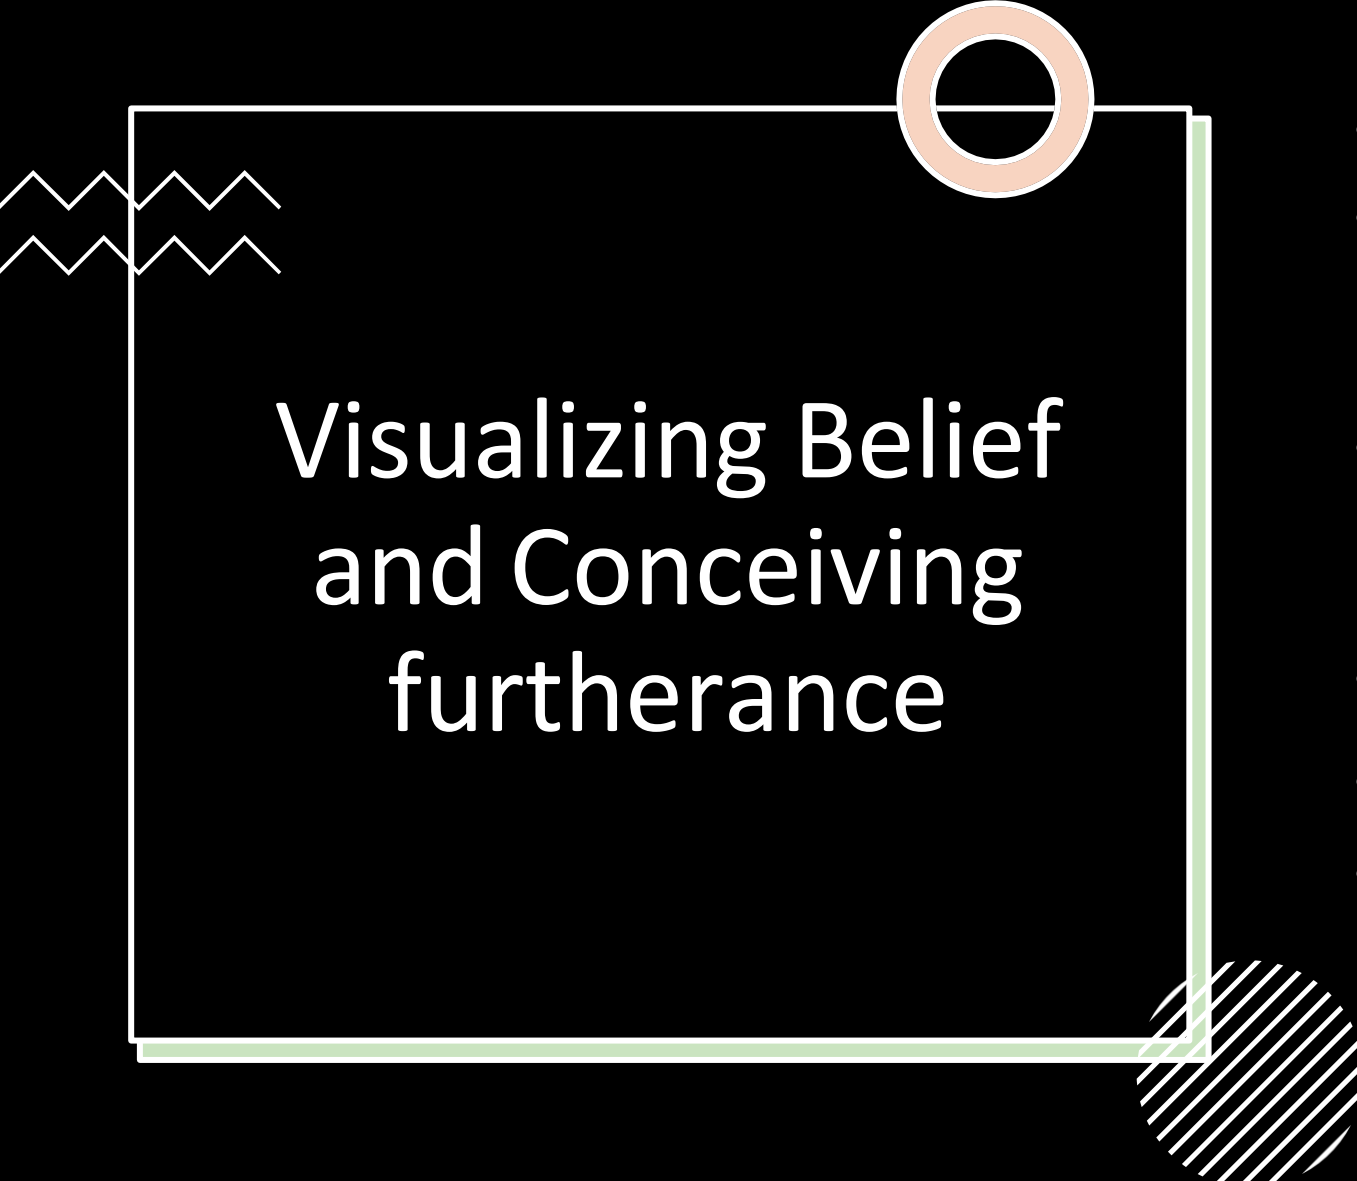

5. Are the different cosmic forms about guarding and influencing life?

Visualizing Belief

Belief via Prayers to Ganesha

Visualizing Belief and Conceiving furtherance

- India is known to celebrate the Navratri in unified and synergetic ways.
- People as part of synergetic décor keep dolls and other golu forms depicting our mythology.
- People are known to pray to the divinity of the Shaktis of Goddess Durga, Saraswathi & Lakshmi. for 10 days and 9 nights
- Can the art and allied fields create 9 idol like forms of the goddesses so they can be kept in each spiritually interested household during this period to help the spiritually interested experience divinity?
- Can we conceive more furtherance for this spirituality?
- Can we help the cultural flow and accentuation for belief upholding?
- Divinity and belief upholding is known to cause the new vitality or the primordial transformation of the inner energy in us for furtherance.

Visualizing Belief

where the different steps of décor or arrangement of golu develop a spiritual understanding of involvement for emergence, where this is associated with the soul, spirit and self, which are designed to have supervenient functions for transcendence

The insight is that a person's self-building does significantly improve due to practicable positive thinking and responsiveness.

Divinity is a connection beyond contemporary knowledge for all pervasive supervenient functions for transcendence and is part of the cosmic infinite.

Supervenient functions are seen **in the hearts that keep pumping to keep us alive** and also in the umbilical cord attached to the navel of the mother of the "baby capable of evolutionary association and involvement"

AOEC has tried to help cultural flow and accentuation for belief upholding via its gap analysis and has deemed doership for valuing life to be our self-designed responsiveness for the timelines and horizons connected

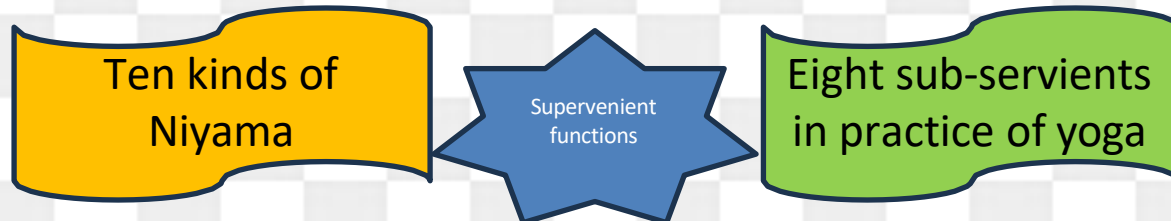

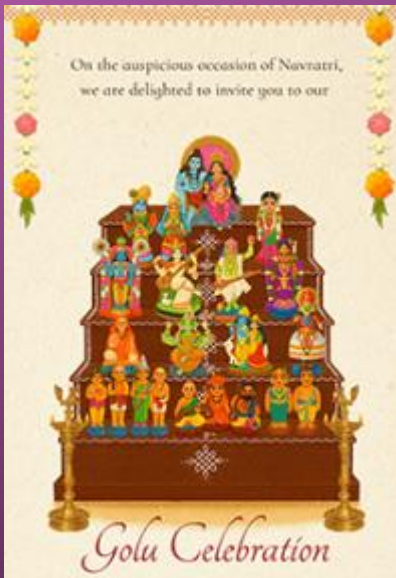

Visualizing Belief

The new Heartfelt Golu can be designed to help a person/doer/family enable a belief that the cycle involving the beginning (or evolutionary association), the conception (or birth), the existential (or practicable doership), the seeking (or flow and accentuation) and the last attachment link (or mukti) can be illustrated via the décor of the golu, where each of the steps represent the Niyamas and the sub-servients that help us become capable of "evolutionary association and involvement"

The ten Niyamas and the 8 plus 2 sub-servients are

Religious austerity	Purity of mind and apt interest
Practice of Contentment	Non-coveting attitude
Belief in the divine	Compassion
Charity	Straight forward association
Worship	Patience
Valuing religious evolution	Courage
Attitude	Non-injury of self-capability
Intellectual interests	Moderate interests
Prayer	* Truthful influence
Auspicious observation	** Goodwill in decision making

Project Activity selection Guide (VONC & VOF PROCESS)

S No.	Insights to be considered	Illustrative Rating				
		Very Low	Low	Moderate	High	Very High
		1	2	3	4	5
1	Is the Heartfelt golu for the family (...or a named community)?					
2	How much does this Project help the family... to support or work towards their lateral thinking for the 10 Niyamas and the 8 sub-servients?					
3	How much impact will this project have in terms of celebrating the Navratri?					
4	What is needed as resources for this project, its idols or illustrations?					
5	How much money or savings does the family... expect to use for this project?					
6	How much clarity does the family... have as lateral thinking for this project ?					
7	How much involvement (Tangible or Intangible) will this project bring to the family...?					
8	What is the timeline for completing this project? (Usually periods/hours/days/weeks)					
9	What level of golu décor accuracy needs to be achieved in using the relevant data from the family... for this project ?					
10	What is the availability of any supporting golu décor/structure to complete this project successfully ?					
11	What is the level of golu decor design/ supply provisioning needed from the Centre's side ?					
12	What is the level of golu décor activity support offered from the Navratri Project Centre?
